First Congregational Church
3212 Pontaluna Rd., Fruitport

Calvary Christian Schools in Fruitport has announced that they are open this fall, Preschool through 12th grade, with regularly scheduled 5 days a week classes. Calvary is utilizing strategies reflecting that the health (physical, mental, and spiritual) and safety of our students is our number one priority.

School Administrators have been working hard with a "Back to School Committee" which included medical professionals, to put together a comprehensive plan and includes a reworking of entrances and exits, spacing, a wide variety of cleaning procedures, etc.

Head administrator Tom Kapanka stated "We have presented to the board a well thought out plan reflecting the best of medical and health policies. Our facility and class sizes allow us to be very creative in light of the current situation, and we are excited to see students back in school." School board president, Dr. Deron Nelson, stated "We are confident that Calvary has enacted a plan that will keep students and families safe, and we look forward to having our children back in the classroom."

Calvary

CHRISTIAN SCHOOLS

A Great Place to Grow

**Calvary Christian Schools offers

Candidate Bio: Eric Rothoff

My name is Eric Rothoff. I am a businessman and an IT professional that graduated from Michigan State University in 1994 with a BS in Computer Science, and a BA in

International Relations.

The office of Register of Deeds needs a change. It has not upgraded their Online Document Search website since 2004. (To compare, we were on Windows XP and Vista wasn't released yet.) The county updated part of the Register of Deeds website, but the office didn't check the site, so now on 8 pages, you can't go back to the homepage.

Also, the office has registered incomplete records, and lost submitted documents. I will be at the office to help make sure all submitted documents are complete and recorded. I will also work to improve services by providing electronic and "no-contact" options.

Finally, I will work with other agencies and companies to match parcel ID numbers to post office addresses, so 911, Google Maps, Mapquest, and other services have the same location. My house is a prime example. Google and 911 can not find the address that my township changed my parcel to.

So please Vote for Republican Eric Rothoff for Muskegon County Register of Deeds.

New Spine Surgery Robot in Muskegon

Muskegon Surgery Center is First Surgery Center in Michigan, Second in Nation to Use Mazor XTM Stealth Robotic Guidance Platform for Spine Surgery

Muskegon, Michigan – Muskegon Surgery Center (MSC) is pleased to announce it will now offer surgical spine procedures using the Mazor XTM Stealth Robotic Guidance Platform for Spine Surgery. MSC is only the second ambulatory surgery center in the nation, and the first in Michigan to make this state-of-the-art robotic spine system technology available to its patients.

As spinal surgery has evolved, more focus has been placed on minimally-invasive techniques, and this is where the Mazor XTM Platform can deliver its greatest technological benefits. Smaller incisions associated with minimally-invasive procedures can pose a challenge to surgeons due to the limited view of the patient's anatomy. The Mazor XTM Stealth Robotic Guidance Platform helps to overcome this challenge with a 3D comprehensive surgical plan and analytics that give the surgeon comprehensive information and visualization before the surgery starts. The ability to create a plan with this level of detail results in greater precision and fewer changes during surgery.

"Muskegon Surgery Center has been an innovative leader in Michigan's outpatient surgical care industry since it opened in 2009," said CEO Julie Greene. "We were the first in West Michigan to create outpatient total knee, outpatient total hip and outpatient spine surgery programs. Now, with this addition, we are the first ambulatory surgery center in the United States to offer both the Mazor XTM Stealth Platform for spine surgery and the MakoTM Robotic-Arm Assisted Surgery System for hip and knee joint replacement. This is another example of our commitment to providing the best possible surgical experience for our patients and their families, and West Michigan residents should be aware that they do not need to travel to benefit from the finest outpatient technology and care available."

About Muskegon Surgery Center

Muskegon Surgery Center is a nationally accredited multi-specialty outpatient surgery center with specialists in orthopaedics, urology, ear/nose/throat (ENT), plastic surgery (hand and cosmetic), general surgery and ophthalmology. MSC offers an innovative recovery care program for patients who need more than a few hours of post-surgery care and/or patients who come from longer distances. MSC also works with payors and insurance networks across the U.S. to develop programs that can reduce the overall cost of care for patients and their employers.
