

Patriot,

Freedom Watch is a citizen-supported "national civil rights organization" dedicated to protecting the God-given rights of all Americans but especially conservative Americans.

We achieve this goal by fighting in our state and federal courts to defend the civil rights of all Americans. This is work that we can only continue to do if we receive the financial support from Patriots.

Your gift will allow us to litigate the *Class Action Lawsuit* that our client has filed and will refile with more egregious outrages against the FBI to defend the civil rights of peaceful protesters *that the government is punishing* for attending the January 6, 2021, pro Trump Rally in Washington D.C.

Specifically, our client's Class Action Lawsuit names FBI Director Christopher Wray, FBI Special Agent Chad Warren, and the more than **20 FBI Storm Troopers** they sent to attack my client, *Siaka Massaquoi*, at home in the early morning for exercising his Free Speech, Peaceably Assemble, property and other rights guaranteed him in the Bill of Rights.

Siaka agreed to serve as lead plaintiff in our lawsuit to enforce the rights of ALL peaceful protestors who have been arrested, jailed, AND financially destroyed on orders by corrupt leftist politicians, Deep State bureaucrats, and activist judges at the federal level.

More to the point:

WASHINGTON DC HAS BEEN OVERUN BY SOCIALIST, COMMUNIST AUTHORITARIANS WHO ARE USING KANGAROO COURTS, FORCED CONFESSIONS, AND LOYALTY OATHS TO SECURE CONVICTIONS AGAINST PEACEFUL JANUARY 6 PROTESTERS!

Here's proof.

One of the federal D.C. Circuit judges who is presiding over the persecution of Trump supporters is Randolph Moss – a political hack *appointed to the court by Barack Obama*.

"Judge" Moss sentenced one of the peaceful protesters at the capital on January 6 to eight months in prison.

But not before Moss forced the defendant to recognize and confess – CONFESS – that Joe Biden was the lawfully elected President of the United States.

If the defendant did not pledge loyalty to President Biden, Moss would have sentenced the defendant to *even more* time in jail.

This is what we are up against.

To successfully fight in court for Siaka – and hundreds of peaceful protestors who are rotting in jail and in solitary confinement until they break – I need your help!

Thank you in advance for joining me in this legal battle and helping Freedom Watch – and Mr. Massaquoi – with your gift today.

Yours in Freedom and Liberty,

Larry Klayman

Founder and Chairman

Freedom Watch, Inc.

P.S. Right now, federal judges in Washington, DC are using their near absolute power – at the command of socialist and communist authoritarians – to employ **KANGAROO COURTS, FORCED CONFESSIONS, and LOYALTY OATHS** – to convict and punish peaceful January 6 protestors.

These fascists think that Mr. Massaquoi, and others like him, do not have the resources to fight back.

But you can prove them wrong by helping Mr. Massaquoi and moving his Class Action lawsuit with an amended complaint with more outrages against the FBI, which is like Biden's own "Gestapo," forward with your contribution today. Thank you very much.

Freedom Watch, Inc.

Who Owns Your Body?

condensed from an article by Lisa Middlecamp-Lowder, Ph.D

Rights Born out of Horrifying Necessity

No discussion of medical freedom would be complete without mentioning what we learned from the Nazis during the Nuremberg Trials. From the Trials, we were given the Nuremberg Code of 1947 and the Declaration of Helsinki. These documents protect the most basic human right that a person can choose what is allowed to go into their body - AFTER they give VOLUNTARY and INFORMED consent.

The "patient" must be made aware of any and all risks associated with taking the proposed treatment.

People look to a "vaccine" for prevention.

Those in the natural health community, as well as those with vaccine injured loved ones, would rather turn to a proper diet and additional supplements like Vitamin D, cod liver oil, zinc, elderberries, and such for immune system support. The FDA has given only emergency clearance for the current shot because of the lack of long term studies for safety and efficacy. Anyone who has taken the time to get a package insert from their local pharmacy knows the insert is blank. That is NOT informed consent.

According to the USA Vaccine Adverse Events Reporting System (www.openvaers.com/covid-data, checked 10/22/2021), there have been 837,593 COVID vaccine adverse events reported, including:

- 86,542 Total post-COVID vaccine reported hospitalizations
- 17,619 COVID vaccine reported deaths
- 2,631 Miscarriages
- 10,304 Myocarditis/pericarditis cases
- 26,199 Permanently disabled
- 31,753 Severe allergic reactions
- 7,532 Anaphylaxis

Read the first hand accounts of recipients of the shot.

Your Body, NOT Your Choice?

Now we have businesses, educational institutions, and even the military "mandating" the shot. Employees, students and servicemen/women are facing a choice between their job or school and getting an experimental treatment with questionable results and no liability should the recipient be harmed. As people work to gather information on how to protect their bodily integrity, some employers have said they will not be allowing exemptions.

Know Your Rights, There is Help!

Peggy Hall, former Director of Teacher Education at the University of California, has been speaking out since the beginning of the "pandemic" about the rights of Americans. On her site, www.thehealthyamerican.org, people can obtain a packet to file for a religious exemption.

Michigan for Vaccine Choice will help, as consultants, on any case that comes forward to file for religious or medical exemption to vaccination to maintain employment. Jimmy Thomas has agreed to take on such a case. He will also help any employees with Cease and Desist letters to employers for \$300. Attorney Jimmy Thomas email is jimmy@jimmythomaslaw.com.

Employees can learn about their rights here: <https://www.michiganvaccinechoice.org/work-waivers>

The time to GET INVOLVED is NOW!

Educate yourself and be sure to look at the funding sources of what you read.

Become active in government. Health freedom is a hot topic and there is much activity in the legislature on the issue. Our local Muskegon G.O.P. is committed to individual rights, including health freedom.

It is time to stand up for our God-given freedom because there are powerful forces out there trying to take it away.

Peer - Creighton

Taylor Christine Peer and Brock Aaron Creighton were married on October 2, 2021 at the Muskegon County Fairgrounds which also included the horses. The rain held off until after the festivities. Taylor is the daughter of Tony and Lorrie West and the late David Peer, and has a son, Sawyer. Grandparents of the bride are Ron and Mariann Cooper. Brock is the son of Tim and Tracie Creighton. His grandparents are Dianne Creighton and Ken and Regenia May.

Fruitport Village Kayak Launch

by Ann LaCroix

In 2020, the Village of Fruitport was excited to learn that the Village's application for a grant to the Michigan Department of Natural Resources to build an all accessible kayak launch was awarded funding. All accessible means Americans with Disabilities Act (ADA) compliance and is built to be reached or entered by people who have a disability. This kayak launch is in the mid stage of development and will be located on the shores of Spring Lake in the Village of Fruitport's beautiful Pomona Park. The kayak launch will increase recreational opportunities for residents and visitors of all ages and abilities and will be the only dedicated launch for kayaks on Spring Lake.

The project in its application stage received letters of support from many including Muskegon County, Fruitport Township, Fruitport Community Schools, and the Disability Network of West Michigan. The Village's ADA accessible kayak launch coincides with the overall county goal of expanding recreational opportunities for everyone especially senior citizens and those with disabilities. This is a truly special project for Fruitport Village, and everyone is excited about it.

While the Village did receive state grant funding for this project, local match dollars totally \$75,000 still must be contributed as part of the grant agreement. Anyone who is able and wants to help towards the required local match for this important project is encouraged to do so. Local support is key to not only help fund the kayak launch, but to get the word out to everyone about the development of this exciting project.

A donation of any size will have an impact on the entire community, especially seniors and those with disabilities, and will be used to offset funds that would otherwise come out of the village's general budget. You can donate by sending a check to the Village of Fruitport office at 45 N. Second Avenue, Fruitport, Michigan 49415. Please do not hesitate to call with any questions to (231) 865-3577. Your generous pledge will be recognized on a special donor display that will be located near the kayak launch once developed.

Look for the new all accessible kayak launch and expanded parking area to be constructed on the east side of the boat launch in the spring of 2022.

"If it be asked, what is the most sacred duty and the greatest source of our security in a Republic?

The answer would be, an inviolable RESPECT FOR THE CONSTITUTION AND LAWS."

—Founding Father Alexander Hamilton
