

Random Opinions and Observations From 85 Years of Living.

by Ron Cooper

If opinions different than yours offend you, you probably shouldn't read any further.

In reading Biden's email conversations with his son, Hunter, it's obvious neither has a moral compass. Biden's record of decisions for this country shows the same lack of moral guidance.

Biden's picks for advisers and appointees are a bunch of eggheads and weirdos who must not comprehend the unintended consequences of their actions. Many have no moral guidance. They are stupid, stupid, stupid and don't have the brains to even care about the damage they are doing to our country. We need to get these idiots out of our government before they damage it beyond recovery.

"The greatest danger to American Freedom is a government that ignores the Constitution."
Abraham Lincoln

No government in history has had the success of ours. The framers of our Constitution have stated that for our government to survive our voters must be moral, informed Christians, otherwise our government will fail.

If you want to do your part for your country you need to be an informed voter.

Learn the Christian moral values and live by them, even if you're not a Christian. This country will collapse from within as the people in this country get away from those moral values as we are already witnessing at this time.

Governor Ron DeSantis published:

Whatever you may choose to call it, the left wants to take it from you: Your right to speak your mind. Your right to practice your faith. Your right to protect and defend your home and family. Your right to own and operate a business. Your right to educate your child.

The left is currently doing everything they can to take these God-given and Constitutional rights away from you, and it isn't an accident. This is their new America!

It's hard to understand how people who are part of the black community can be Democrats. The Democrats were the side that fought to keep slavery. The Democrats are the ones who killed people to prevent blacks from voting. The Democrats are the ones who are trying to change history so the blacks don't know that. The Democrats are the ones who give the girls with a couple babies just enough to discourage them from getting married and forming a family, but keeping them poor and dependent on the government for their existence. It's also the reason that their kids are growing up without their father in the house and being responsible and supportive for their kids. The Democrats are purposely developing a group of people who are not capable of surviving without government help so they can depend on their vote. They give them just enough to live but in some cases not even as good as slaves.

The people who created our government and the Constitution which is the recipe for our government, they have said that it requires a moral population for continued success. The morality they refer to comes from the Bible. As we see the deterioration of that morality, we witness the deterioration of our country. It seems that our Christian churches need to do a better job of teaching that morality.

It's become obvious that the government and pharmaceutical industry have covered up the problems and side effects of the Covid shots.

It now brings awareness that the government and pharma have been using the same tactics and dishonesty in the coverup and the danger of other vaccines.

Some of the comments on the last issues of "84 Years of Opinions" column:

40 years of your opinions would have been plenty; hopefully, you have gotten that off your chest; I don't want my children to read those opinions. I've never been so offended in a long time!

Our secretary of state Jocelyn Benson had to be sued to remove 25,975 deceased people from the voter rolls, most have been dead for over five years. Almost 4000 have been dead for over 20 years. Why would she not want those names removed? Her job is to protect our elections and she is doing the opposite. She needs to go.

Tucker Carlson: "No honest person believes the raid on Donald Trump's home was a legitimate act of law enforcement."

Trump called for "the immediate release of the completely un-redacted Affidavit" hours after the DOJ filed its position in court. Evidently he is not worried for the truth to see the light of day.

I would wager that the people who have been part of spending millions of taxpayer dollars investigating every possible aspect of Trump's life and history are the people who are guilty of what they assumed Trump was guilty of.

Not very many people could survive the scrutiny that Trump did. They surely don't want him in office pointing out their corruption and incompetence.

Dr. Ronnie Jackson, previous White House doctor: Joe is totally corrupt. He has shown he'll do anything to go after his political opponents, and he'll use your tax dollars to do it!

Discussing a political issue with a Democrat is like arguing with someone who is drunk. It's a waste of time. Although I do have some Democrat friends that I am willing to waste time with!

The Democratic favorite tactic is to accuse any opposition of what they themselves are doing. If they accuse someone of something, it's a sign that they are doing it themselves.

We are in the beginning stages of a socialist nightmare!

Jay Sekulow:

"It's dangerous, but true. The Biden administration is more concerned with capitulating to hostile foreign governments than serving and protecting the American people. We're seeing the tragic consequences of President Biden's inept policies play out before our very eyes, on the world stage and here in our own country."

While China and Russia attempt to steamroll other nations, The president continues to court Iran and fund Israel's enemies. America will pay a steep price for his betrayal of our ally."

If Trump were kinder and gentler, America's enemies would have been much more brazen.
--Dick Morris, advisor to President Clinton

Trump's philosophy of peace through strength is credited to Reagan, but actually goes back to the founding of our country.

It's common knowledge among informed people that some of the voting machines are susceptible to fraud, why are we still using them?

It would not surprise me to find out that China is buying our closed coal generating plants and using them for the added capacity that they are building. They could be eliminating the air cleaning equipment that is used in this country.

Russia is selling gas to China. China is then selling gas on the open market to Europe at inflated prices. Which is helping both Russia and China, our enemies. All because of the Biden administration policies of discouraging the use of American gas. If the EU were buying her oil from us it would instead be helping both the US and Europe by providing them with lower cost. We need to get the Democrats who are all part of this stupidity out of office!

Tom Fitton reports carloads of FBI agents surrounded MyPillow's Mike Lindell and took his phone, but Hunter Biden travels on Air Force One!

Dr. Simone Gold reported: when your government lacks transparency regarding the efficacy of a jab that it imposes mandates for, you probably shouldn't trust that government.

Rep Jim Jordan comments: there's a reason why so many people think Joe Biden is doing a bad job. - Because he is!

Would you vote for someone who just stole three grand from you?

by George Rasley, Conservative HQ editor 9/15/22

Yesterday we broke down the numbers from the latest consumer price index report from the bureau of labor statistics and the numbers were really bad as consumer prices surged 8.3% last month compared with a year earlier.

Inflation numbers translate into a \$3000 annualized loss in real income for the average American since Biden took office. That doesn't include the loss in value of your retirement savings. In other words, Biden and the Pelosi - Schumer Democrats have stolen \$3,000+ from you since they took power on January 20, 2021.

If Trump supporters were actually intending an insurrection they would have succeeded. There were millions of them and there was very little defense against them.

What are our Congressmen and Senators doing about the injustice to January 6th political prisoners?

They don't want Patriots in the military service. They want Socialist leaning soldiers, in case the political leadership turns the army on the citizens they want soldiers who will follow the leadership.

Mitch McConnell is talking about low quality candidates.

Hillary called us deplorables.

They both think they are superior to us.

The new Republican party is the common sense party. The new Democrat party is the stupidity party absent of basic morals and common sense.

Volcanoes, wildfires, industrial fires, natural phenomenon, tropical storms, tornadoes, hurricanes, floods, sun eruptions toward earth have more effect on the climate than people do.

If the world is getting warmer why would you cut back on electric production. It seems that you would add to electric generation to cover the increased need as China is doing.

Patrick Moore, one of the Greenpeace founders, has said that the environmental movement is more of a political movement focused on money and power using fear and guilt.
