

Texas Governor Abbott

First, Kamala Harris and Joe Biden abandoned our southern border from Day 1 in office.

Then, the Biden-Harris Administration and Open Border Democrats insisted there was no border crisis.

**NOW** with a little over a month to go until Election Day, Kamala Harris is trying to convince voters she cares about border security.

Actions speak louder than words, Friend, and it is clear: **U.S. "Border Czar" Kamala Harris does NOT care about keeping the American people safe.** Instead, she'd rather cater to the Radical Left's whims to accommodate the illegal immigrants POURING into our country.

President Donald Trump sent an email to supporters on Monday, stating that he was appalled by the "slap on the wrist" given to Ryan Routh, a man who camped out near Trump's golf course in West Palm Beach, armed with a long rifle and scope, in hopes of assassinating the 45th and potentially 47th president.

The Kamala Harris/Joe Biden Department of Justice and FBI are mishandling and downplaying the second assassination attempt on my life since July," Trump wrote in an email to supporters. "The charges brought against the maniac assassin are a slap on the wrist. It's no wonder, since the DOJ and FBI have been coming after me nonstop with Weaponized Lawfare since I announced my first Historic Campaign for the Presidency."

Routh was charged with two federal gun counts. Florida Governor Ron DeSantis has vowed to do a state-level investigation and said that the charge of attempted murder would be on the table. DeSantis has said that it's absurd for the FBI, which is also prosecuting Trump, to be tasked with investigating the violence against him.

### **Transcripts: President Trump's Request for More Troops on January 6th was Denied**

By Eric Lendrum, American Greatness

After years of mainstream media accusations that former President Donald Trump did nothing to protect the U.S. Capitol on January 6th, new transcripts reveal that the then-president was the only one who wanted extra security, only for his requests to be refused.

As reported by Just The News, the transcripts show that President Trump ordered officials to "do whatever it takes" to protect the Capitol on the day that the electoral votes for the 2020 election were being certified, out of fear of protests against the suspicious and probably fraudulent election results.

General Milley admitted that during a meeting on January 3rd, President Trump had already approved the use of the National Guard and active-duty troops to maintain law and order in the nation's capital on the 6th.

The federal government has confirmed that since Biden and Harris came to power, the number of child sex trafficking cases has tripled. This makes it even more sickening that Biden and Harris have done virtually nothing to improve the situation at the border.

Sourced: Breitbart News

The rising number of youth sex-trafficking cases were posted at the Department of Health and Human Services when TheFreePress demanded the data under the Freedom of Information Act. The agency is responsible for checking and issuing Certification and Eligibility Letters to the children and youths who first request aid after escaping sex traffickers.

The agency issued 1,143 letters in 2021, 2,226 letters in 2022, and 2,148 letters in 2024 under the welcome policies set by border chief Alejandro Mayorkas. The agency has not posted any data since the first week of September 2023.

### **Border Crisis Is Out of Control**

Knowing that this has been happening, Biden and Harris should have been doing whatever they could to close the border as much as possible. Instead, their woke policies continued to make it easier than ever for illegal aliens to flood into the country and for this child sex trafficking to continue.

As with many of the current administration's failures at the border, much of this can be blamed on Harris. After all, one of the few tasks that Biden gave Harris as his vice president was to make her his "border czar." Instead of taking steps to fix the border crisis, however, it only got exponentially worse on her watch.

Danica Patrick was a pioneer in both the Indycar and NASCAR scenes.

She became the first woman to win an Indy Car race as well as take a pole position in NASCAR.

Now Patrick is joining the Trump train.

She hosted a town hall event in the key battleground state of North Carolina with former President Donald Trump's running mate, U.S. Senator J.D. Vance (R-OH).

At the event, Patrick – who is 42 – revealed she never voted before.

But Patrick realized she needed to get off the sidelines this time and cast a ballot.

"I just want to say I've never voted before, but this time around, I have to vote," Patrick stated. "It's that important."

So many of you have heard about my story and STOOD up to the WOKE left trying to FORCE perverts in women's spaces.

But I'm afraid it might not be enough.

Elon Musk just said: **"Very few Americans realize that, if Trump is NOT elected, this will be the last election. Far from being a treat to democracy, he is the only way to save it!"**

**I COMPLETELY AGREE!**

If the left wins, they will COMPLETELY OVERRUN America with illegals and future Democrat voters.

There will be **NO PLACE TO RUN** when the **ENTIRE** country turns into California!

In an utter display of hypocrisy, Representative Jamie Raskin (D-MD) has openly stated that **he would NOT certify the 2024 election** if Donald Trump wins the presidency on November 5th.

This is election interference of the highest degree. Raskin has no right to withhold the duly cast Electoral College votes from the citizens of the United States. What's worse? He's one of the most outspoken Democrats concerning January 6th and has tried time and time again to lock Trump up for doing what he himself is about to do.

Veteran political strategist and pundit Roger Stone and Slingshot.News Editor-in-Chief Troy Smith interview Gordon Chang, an expert on China who lived and worked in Shanghai and Hong Kong for two decades.

Chang tells Stone and Smith that Americans have no idea how deeply infiltrated China is in all strata of life in the United States. Stone points out that China has infiltrated academia, pointing out the millions sent to the University of Pennsylvania that was essentially used to pay Joe Biden for a no-show job.

Stone points out that China not only has a sophisticated spying apparatus set up in Cuba, but that military experts believe that the Chinese have already mounted defensive missiles in Cuba that could be easily converted to offensive weapons against the United States.

Robert F. Kennedy interviewed Charee Peoples, an African-American mother, along with her daughter Shayla Peoples. Charee was prosecuted by district attorney Kamala Harris because her daughter was truant from school, but Shayla was suffering from a severe case of sickle cell anemia and suffered a stroke at age 12, being hospitalized and unable to attend public school. The school itself was fully aware of the child's medical condition and inability to be in the classroom.

Despite these facts, District Attorney Kamala Harris prosecuted Peoples after an early morning raid at her apartment complex, perp walking her in handcuffs for the waiting media that Kamala Harris tipped off to the arrest.

Peoples resisted demands by prosecutors that she plead guilty and fought for two years before the California State Supreme Court declared the law she was being unfairly prosecuted under was unconstitutional.

She tells Kennedy that Kamala Harris used her arrest as a publicity stunt in her campaign for California Attorney General and points out that it is a perfect example of Kamala Harris's abuse of Black people during her tenure in law enforcement.

### **DOJ Sues Virginia to Halt Noncitizen Voter Purge Ahead of November Election**

The Department of Justice (DOJ) filed a lawsuit against Virginia, alleging that the state's removal of noncitizens from voter rolls violated federal election law, specifically the "Quiet Period Provision" of the National Voter Registration Act (NVRA).

Virginia Governor Glenn Youngkin defended the removal, emphasizing that it complied with a 2006 state law requiring the removal of noncitizens and claimed the DOJ's actions are politically motivated interference.

Mike Shaw, a high-ranking Oregon forestry official, was placed on administrative leave after DEI strategy officer Megan Donecker complained that Shaw prioritized hiring based on qualifications rather than gender identity or personal identity factors.

### **Aurora Rental Property Employee Brutally Beaten by Venezuelan Gang Members**

CBZ Management, a property owner in Aurora, Colorado, claims that members of the Venezuelan gang Tren de Arague took over several apartment units, demanding rent payment and extorting the company to share rental profits.

One employee was brutally beaten by gang members after refusing a bribe to overlook their illegal occupation, and subsequent threats were made against the employee and his family.

The company alleges local law enforcement and the FBI declined to intervene, dismissing the situation as minor despite surveillance footage showing the gang's criminal activity.

**"I think all of us know the Electoral College needs to go," – Tim Walz, October 8, 2024**

Democrats are willing to shred the Constitution and silence the voices of millions of Americans in the heartland.

Brick by brick, Democrats are on a mission to dismantle every single institution that stands in their way from gaining never-ending power.

Elon Musk recently sat down with Tucker Carlson after appearing at President Trump's return to Butler, PA!

But Elon and Tucker discussed a dark reality...

No one is safe from the WITCH HUNT! Not even the richest man on earth.

Not only is the foundation of our Democracy at risk, but Elon's own freedom could very well be hanging in the balance on November 5th.

As one of the most outspoken critics of "puppet" Kamala and a strong believer in President Trump, Elon spoke to Tucker about how he could easily find himself as one of the Deep State's top targets following November 5th.

The radical left has proven that they'll throw their opposition in jail for made-up crimes.

They want to CRUSH free speech and use stasi-style tactics to destroy anyone who opposes them.

If they can do it to President Trump... They can do it to you...

If they can do it to the richest man in the world, they'll do it to you!

**We need true brave patriots like Donald Trump and Elon Musk who continue to show no fear in the face of the Deep State!**

Elon has put EVERYTHING on the line to protect the First Amendment.
