

cheer it on.

The Heritage Foundation managed to track the free cell phones that the Biden administration gave to illegal immigrants. With that data, they uncovered that the administration had trafficked illegal immigrants to 99% of American Congressional districts. It's a deliberate attack on America's sovereignty.

Right News Wire:

During Hurricane Helene, Kamala Harris hung out with celebrities at a fundraiser while the storm pounded Tennessee, Georgia, Virginia, and North Carolina.

More than 200 Americans lost their lives with that number expected to rise.

The storm inflicted tens of billions of dollars in damage in what promises to be a yearslong rebuilding process.

And after the storm ripped through the region, Kamala Harris and Joe Biden were nowhere to be found.

Rural residents were left to their own devices depending on private groups.

Kamala Harris did have time to record an interview for the sex-themed podcast, *Call Her Daddy*.

Senator Kennedy (R-LA) expressed disbelief in an interview with Sean Hannity that Kamala Harris would conduct such an interview while her fellow Americans were suffering.

Kennedy mocked Kamala Harris for blabbering about tampons when her administration left Americans to fend for themselves in the wake of a natural disaster.

Israel is fighting for its survival and Western Civilization. Yet Western democracies are not united in defending their own civilization. France is advocating the termination of support to Israel, and the United States is funneling millions of dollars to people who hate Western Civilization.

After the Israeli bombings in Lebanon against Hezbollah leaders, weapon stockpiles, and missile launchers, the US Government announced \$157 million in aid to Lebanon, a country that is dysfunctional and effectively ruled by Hezbollah and a country that wishes "Death to America." This brings the year total of U.S. aid to Lebanon to \$385 million.

Kamalanomics Means More Bidenflation

Yesterday's Consumer Price Index, the final inflation report before the election, show year-over-year prices increased by 2.4% in September — far higher than the 1.4% inflation rate when President Trump left office and the 43rd straight month where inflation has remained above the Fed's target rate.

Under Kamala, inflation has averaged 5.2% — almost three times the average inflation rate under President Trump.

Deplorable Daily, 10/11/24:

FEMA's mission being compromised to help illegal immigration

U.S. Senators Josh Hawley (R-MO), Rand Paul (R-KY), and others sent a letter to President Joe Biden warning that FEMA is compromising its mission of disaster relief by being used to help with the border crisis.

The Biden-Harris administration has made no bones about the fact they want to bring as many illegal aliens into the country as possible.

Every part of the federal government is being used to further their open borders agenda.

Department of Homeland Security (DHS) Secretary Alejandro Mayorkas admitted that the Federal Emergency Management Agency (FEMA) would run out of money before the end of hurricane season.

FEMA has spent more than \$1.5 billion on housing, feeding, and transporting illegal aliens since the Biden-Harris administration came into office.

Now, Mayorkas says there isn't enough money for Americans who had their lives upended by devastating hurricanes.

America is at a crossroads, and we are seeing firsthand what happens when powerful elites feel threatened.

Remember when Millersville Assistant Police Chief Shawn Taylor's home was raided? This was because his department had documents tracking the financial transactions of powerful individuals.

I have a feeling that the content on those

documents is SHOCKING and could turn this nation on its head!

*But you see how it goes – the moment we get too close to the truth, the Democrats will stop us, using any way possible, including ransacking someone's home and removing all proof!*

When we started to expose what's really happening behind the scenes, the same system that's supposed to protect us is **turned against us. In a country built on freedom and justice, this should never happen.**

Elon Musk:

Very few Americans realize that, if Trump is NOT elected, this could be the last election. Far from being a threat to democracy, he is the only way to save it!

Elon Musk explained: Joe Biden (and now Kamala Harris) have imported "asylum seekers" directly to swing states! They BLOCKED Republicans from outlawing non-citizen voting. **"If even 1 in 20 illegals become citizens per year, something that the Democrats are expediting as fast as humanly possible, that would be about 2 million new legal voters in 4 years."**

---

**Rep. Dr. Ronny Jackson:**

**Just 3 months after our President nearly lost his life, he returned to the same place, stronger than ever.**

---

**He's been through so much, but he never gave up. The Democrats have thrown the kitchen sink at him, but he refused to go down.**

Did you know that 60 years ago Venezuela was 2 times richer than China? 4 times richer than Japan? It was the 4th ranked world economy (1st in Latin America). It's currency was 2nd only to the U.S. dollar and they had an excellent health system.

**In only 10 years Venezuela was destroyed by SOCIALISM.**

Casting a ballot is not just our primary method for influencing our government, it is our sacred civic duty entrusted to us by the brave men and women who gave their lives so that we might strive toward a more perfect union.

When we vote, we must ask ourselves if the cause of freedom and the cause of life, which are woven together, inspire us to vote a certain way.

According to the Public Interest Legal Foundation, over the last two decades, there have been 625 elections that ended in a tie vote! There were another 162 elections that were decided by just 1 vote! – Amber Roseboom, Right to Life of Michigan

"A leader is the bravest man."

–Tucker Carlson, 2024 Republican National Convention

July 13th was one of the most revealing and jaw-dropping days in American political history. When a bloodied Donald Trump stood up, fist waving, just moments after being *shot in the head*, he became something more than what any stately title can imply.

*Donald Trump became the leader of the nation.* And that changed everything.

No one knows where the Trump story will end, but that moment is sure to be its defining chapter. It's worth commemorating.

President Trump honored and praised Sheriff Joe Arpaio several times at his recent campaign rally in Arizona.

Just a short time after, Kamala Harris smeared Sheriff Joe.

You and I know this dangerous talk has already likely caused two assassination attempts against President Trump.

But Harris and Biden don't care that their vicious smears are likely to cause more violence against Sheriff Joe and his hero President Trump.

**That's why I've filed a defamation lawsuit against Kamala Harris and Joe Biden over their smears of both Sheriff Joe and President Trump by branding "America's Toughest Sheriff" a convicted criminal and felon.**

He's a decent and good man, not a convicted

felon. And he led the war long before Harris and Biden to secure the Southern border from drug traffickers selling fentanyl and other hard drugs, sex traffickers, Mexican gangs and terrorists.

**He's protected you and me, our families, friends, and fellow citizens, for decades.**

**Kamala and Corrupt Joe Biden are putting President Trump and Sheriff Joe in great danger.** They must answer for it in a court of law.

The Hon. Rick Santorum:

Planned Parenthood just released their annual report showing the Abortion Goliath raked in nearly \$700 MILLION from taxpayers while committing 392,715 abortions last year alone!

This was AFTER an undercover video investigation caught Planned Parenthood chopping up recently-aborted babies to sell off their organs for spare parts.

**During my 12 years in the United States Senate, I saw firsthand how Planned Parenthood spent MILLIONS of dollars every election to install politicians who they could count on to keep the taxpayer dollars flowing into their coffers.**

David Krayden, 2024-10-20, The Post Millennial

Elon Musk was in Pennsylvania Sunday along with Republican presidential candidate Donald Trump to tell Keystone State voters that although he might "hate politics" he's engaging in it right now because "the stakes are too high that...I feel I have no choice."

"Yeah, anyway, so I'm dramatically increasing my risk of being assassinated. And, you know, engaging in politics is not what I want to do. I do not have a death wish but the stakes are so high that I really have to; I feel I have no choice but to do it. And that's the reason," he told the rally in Pittsburgh.

---

The stakes for Musk are defending free speech and the right to bear arms – the first and second amendments. Musk announced that he will pay up to \$1 million per day to Pennsylvania voters signing his America PAC petition before Election Day. The petition asks signers to support these two amendments. Musk asks winners of the cash award to be "spokespersons" for the petition.

Jack Posobiec noted on Z: "HE DID IT AGAIN! Elon hands out \$1 Million Dollars to a woman here in Pittsburgh for signing Constitution petition.

The Heritage Foundation

Nations are defined by the people who live in them. It's that simple.

**Our country is changing faster than it ever has, but not by democratic means. Instead, it is changing by force through waves of mass immigration that not a single American has voted for.**

What's happening is a crime. It violates both federal law and the core precept of democracy, which is that its citizens get to govern their own country.

If it continues, your country will never be the same. Leftist policymakers let it happen. And they cheer it on.

**Fortunately, there is a group fighting on your behalf behind enemy lines in Washington – The Heritage Foundation.** They create and advocate for policies that will return sanity to our nation, policies like:

- Building a wall to prevent all future illegal immigration.
- Deporting current illegal immigrants, starting with the most dangerous criminals.
- Requiring employers to use E-Verify to ensure they are not hiring illegal immigrants.

In addition to policy solutions, they use advanced investigative tactics to expose the full scale of America's border crisis.

They managed to track the free cell phones that the Biden administration gave to illegal immigrants. With that data, they uncovered that the administration had trafficked illegal immigrants to 99% of American Congressional districts. It's a deliberate attack on America's sovereignty.

Kamala Harris has no experience successfully managing anything significant compared to managing our country. One of her techniques for getting ahead in politics, that worked very well for her, was to sleep with men who could be helpful to her. She obviously is talented in that area. I don't know how that talent works in world affairs, but Putin could be the next lucky guy.
