International Buster Keaton Society Convention

October | Downtown Muskegon

An annual gathering celebrating the life and films of silent film star Buster Keaton, featuring screenings, presentations, and special events for film enthusiasts.

Jihad Update

by former State Senator Dave Agema

Spain: An ungrateful Migrant immigrant Repays His Hosts in Barcelona by killing a woman with a knife and stabbing an onlooker who threw rocks at him in an attempt to stop him (no guns allowed). Of course he was screaming "Allahu Akbar" and the police are so stupid that they are still looking for a motive. It's called Islam!!!

Colorado: A radical jihadi Muslim pleads guilty in a deadly firebombing attack against a rally for Israeli hostages. Soliman was also an illegal migrant from Egypt, so we can blame the Biden administration's lax immigration policy for the suffering of the victims.

Norway: A Muslim professor in Norway, Bassam Hussein, has described the Hamas attack on October 7, 2023 as "the most beautiful thing that has happened in our century." The Rot in Academic Life Is Not just Limited to the United States, it's worldwide.

Minnesota: A Somali Gets "Probation" in \$11,000,000 Largest Medicaid Fraud Case in Minnesota History. What a travesty of justice. DEPORT!

Australia: After the Muslim Terror Beach Attack, Government Commission Urges 'Gun Buybacks'. What? They need guns for their protection. The authorities knew there was a serious threat and did nothing. Since then, Prime Minister Albanese denied that anything was wrong, refused to meet with many of the victims of the attack, but instead went to a mosque. He's a useful idiot for Islam!

Mali: Islamic jihadis set up checkpoints around the nation's capital and seize a northern town. It looks as if here yet again, as we have seen in Nigeria, Cameroon, the Central African Republic, the Democratic Republic of the Congo, Mozambique, Somalia and elsewhere, that the jihad forces are better equipped, better trained, and better funded than the national military forces. They want to make yet another Islamic state with sharia law.

NYC: After a wave of Islamic mob attacks and riots aimed at Jewish synagogues and communities in New York City that began after the Oct 7 and many of which were titled 'Flood' echoing the name used by Hamas for those attacks, the state's top prosecutor finally took action. And guess what? It was against Jews, not Islam and Muslims. Who did this in conjunction with Mamdani? It was Letitia James, who herself is under investigation. The democrat party is awash with radical Muslims like Mamdani and Islamic sympathizers like James. This must be stopped. Vote!!

Europe: Afghan Muslim Migrants Invading Europe and Stone a Girl for Rejecting an Arranged Marriage. A mother had agreed to marry off her 15-year-old daughter to someone there. And because the girl resisted, the community organized a stoning. Those involved were reportedly relatives of the girl. "Honor killings"

The Islamic Takeover of Europe Accelerates: Europe's leaders have, with a few honorable exceptions, failed to recognize the severity of the threat of continued Muslim migration to the Western world. They prefer to turn a blind eye to the demographic change in their countries, as the percentage of the population that is Muslim inexorably rises through both migration and fertility rates much higher than those of the indigenous non-Muslims. Some of those leaders see Muslims as a potential source of political support, and shape their policies accordingly. Such people, are ruining their country for Muslim votes, just as Whitmer did choosing a Muslim Lt Governor to get votes from Muslims in Dearborn and Hamtramck.

Texas: A Texas American Muslim University Opens in Dallas, teaching its students Islam mingled with high tech subjects in order to take America for Islam. It has no accreditation. Texas already faces similar experiments, such as EPIC City proposals and the expansion of faith-centric enclaves. Allowing a university to train tech professionals in an explicitly Islamic ethical framework risks producing graduates whose main loyalty is to Sharia-derived values instead of the U.S. Constitution.

CAIR (Council on American Islamic relations): A Federal Court SLAMS CAIR and Forces Them to Expose Foreign Donors, its CAIR's leader Nihad Awad's Secret Trips, & Hamas/Muslim Brotherhood Ties! CAIR must be abolished in the USA long with several other fringe groups like MSA, ISNA etc- all seek to destroy America from within.

I applaud Trump's idea to stop all immigration from Muslim countries. Why? Because they come to destroy our constitution and culture, just look at Dearborn and Hamtramck- a nation within a nation where sharia is practiced.
